

## High School Tours

Discover the wonders of human anatomy at McMaster University in our world class laboratory through our engaging and interactive demonstrations and displays. This introductory experience is designed to spark curiosity and interest in the fascinating world of anatomy. These activities are designed for those new to human anatomy and eager to learn more in an exciting, collaborative and supportive environment.

### Tours at McMaster University

Option One Guided Only Tour at the Education Program in Anatomy			
Timing	Student Max	Tour Details	Cost
1 hour	30	<ul style="list-style-type: none"> <li>• <b>Pre-Lab Talk:</b> Begin with a brief introduction covering lab rules, safety protocols, and the importance of respect in the lab environment.</li> <li>• <b>Guided Stations:</b> Students will be divided into small groups to explore various aspects of anatomy, including the gastrointestinal, urogenital, cardiorespiratory, musculoskeletal systems, and neuroanatomy. Each station will feature captivating explanations and demonstrations using anatomical specimens carried out by anatomy experts.</li> </ul>	\$1,447 + tax

Option Two Guided and Self-Guided Tour at Education Program in Anatomy Laboratory			
Timing	Student Max	Tour Details	Cost
1.5 hours	30	<ul style="list-style-type: none"> <li>• <b>Pre-Lab Talk:</b> A brief introduction covering laboratory rules, safety protocols, and the importance of respect in the laboratory environment.</li> <li>• <b>Guided Stations:</b> Students will be divided into small groups to explore various aspects of anatomy, including the gastrointestinal, urogenital, cardiorespiratory, musculoskeletal systems, and neuroanatomy. Each station will feature captivating explanations and demonstrations using anatomical specimens carried out by anatomy experts.</li> <li>• <b>Interactive Station:</b> Students will participate in a fun, challenging and educational skeleton assembly activity, enhancing their understanding through hands-on learning.</li> <li>• <b>Interactive Exploration:</b> Students will have supervised time to explore anatomical models, allowing them to delve deeper into the subject and ignite their passion for the medical and biological sciences.</li> </ul>	\$1,620 +tax

## Tours at Participating Institution

Option Three			
Guided Anatomical Demonstration at Participating Institution			
Timing	Student Max	Tour Details	Cost
75 minutes (One class period)	60	<ul style="list-style-type: none"><li>• <b>Pre-Lab Talk:</b> Begin with a brief introduction covering the importance of respect in anatomy and the anatomy lab and teaching at McMaster University.</li></ul> <p><b>Guided Stations:</b> Students will be divided into small groups to explore various aspects of anatomy, including the gastrointestinal, urogenital, cardiorespiratory, musculoskeletal systems, and neuroanatomy. Each station will feature captivating explanations and demonstrations using anatomical specimens carried out by anatomy experts.</p>	\$1,100

## Guided Tour Topics

Topics for the guided tour can be customized based on discussions with the course instructor ahead of time. If no specific topics are determined, a general overview of the specimens will be provided.

## Liability

For tours at McMaster University, institutions will provide the following:

- Provide a certificate of insurance demonstrating \$5 million in commercial liability coverage.
- Signed consent forms from each participant.
